MEETING MINUTES:

- emphasized that improvements to be within existing right-of-way and the city is not wanting to acquire any additional right-of-way width.
- Explanation and talk of Mountable Median.
- Mention of Street Light locations and Light Pole selection.
- The East and West pedestrian Connectivity at Allen is emphasized as an important connection.
- Scott mentions that he hopes for the booklet to be completed in 2 months.
- 2-5 years for project to be designed and built.
- South end of Rogers Street might be built first because of the new development
- Audience mentions using the backless bench located along McDoel. Says that they have been well received.
- Audience mentions that loitering is not a bad thing and it is nice to have benches along the street for resting or catching up with neighbors.

- Public Works is currently conducting traffic counts at 2nd Street

Questions Posed by the Audience:

How about adding East and West Crosswalks at 3rd Street?

Who is asking for the Crosswalk at new 2nd street option?

Is Public Art an option at 2nd Street?

What is the Proposed Tree Spacing?

What size tree are we proposing?

What will the impact be on the sidewalk at Dixie and Rogers?

Why are the existing benches in McDoel not shown?

Will the Existing Benches stay?

Will the Benches have backs?

Can there be benches at Patterson and Rogers?

Will there be Temporary Easements for trees proposed on private property?

Will there be any Grants for trees?

Why are crosswalks not shown at more intersections?

Is the going to be a special painted crossing for the B-line that can be transferred to Rogers Street?

What is the Time Frame for completion of project at Hillside Drive?

What will be done with the future study area at 2nd Street?

What is the relevance of the Project to Businesses and are we trying to attract new ones?

Are Rain Gardens a possibility?

Why not make Homeowner responsible for mowing Bump-out in front of their house?

Can we incorporate down lighting into the streetscape?

Can the neighborhoods help create their own symbol or mosaic?

Can we use the bus stops that are covered?

Will the new planters be limestone?

What are the Public Transit routes along Rogers Street?
